

# 2015-09-29 CGSync Meeting notes

## Date

 29 Sep 2015 - last meeting

## Attendees

- [Thomas Cherry](#)
- [Christopher Gokey](#)
- [Chris Durbin](#)

## Questions

- Case in-sensitivity in facets for everything but SciKey words?
  - Durbin said "au, I know what's doing that..."
- Data center facets, how many types are we dealing with, how do we combine the existing 4 types
  - archive, data center collapsed into one virtual type
- this sprint is dedicated
- tagging is out there, ready for review
- talk of adding delete to the next sprint
- sit now deploys every day, UAT is every other week.

## Discussion Items

Time	Item	Who	Notes
		GCMD	<ul style="list-style-type: none"><li>• Demo: auto complete (cleaner), facets, format column, Advanced</li></ul>
		CMR	<ul style="list-style-type: none"><li>• no API additions</li></ul>

## Action items

- ☐ [Chris Durbin](#) to fix Science Keywords case
- ☐ gcmd to look at tagging (labels) API
- ☐ should we all meet on thursday, Durbin will be out.

## Other

ticket CMR-2047 looks good
